EXCELLENCE IN EXECUTION. ENGINEERED FOR SCALE

THE GROUP PROFILE

ONE GROUP. UNIFIED SOLUTIONS.
ABSOLUTE CERTAINTY.

The OM & Stallion Synergy

At the OM Consultancy Group, we believe that the highest level of construction quality is only possible when Management meets Mathematics.

By integrating Stallion Structures as our in-house engineering core, we have eliminated the industry-standard gap between architectural & structural design and site execution.

Our Core Philosophies

Unified Accountability Single-point responsibility with no coordination lag between design and execution teams.	Engineering-Led Management Project Engineers with technical depth to solve complex on-site challenges in real-time.
Value Engineering Advanced structural analysis to optimize material usage without compromising safety.	The Turnaround Mindset Renowned expertise in reviving and completing projects others find impossible.

A Proven Track Record

With over ₹2000+ Cr in delivered project value, our footprint spans from the massive industrial floors of Maruti Suzuki and Adani to the high-traffic retail outlets of Zudio and Starbucks, D-Mart and the expansive residential townships.

AN INTEGRATED SUITE OF SERVICES

FROM BLUEPRINT TO BEYOND: OUR END-TO-END CAPABILITIES

The OM Consultancy Group offers a seamless vertical integration of services. By centralizing management and engineering, we provide our clients with a streamlined experience that reduces overheads and accelerates timelines.

Project Management Consultancy ♦ Strategic Planning ♦ Vendor Management ♦ On-Site Supervision	Structural Engineering & Design ♦ RCC & Steel Mastery ♦ PT Design ♦ Infrastructure Design
Turnkey Project Execution ♦ Ground-to-Handover ♦ MEP Works ♦ Fit-Outs & Interiors	Project Revival Experts ♦ Retrofication ♦ Structural Audits ♦ Completing Stuck up Projrcs
Retrofitting Solutions ♦ Structural & Seismic Retrofitting ♦ Energy Efficiency & Envelope Retrofitting ♦ System & Operational Retrofitting	Proof checking ♦ Content and Accuracy ♦ Compliance & Functionality ♦ Technical Accuracy & Fact-Checking

Quality Control & Technical Audits

- ♦ **Material Testing:** Rigorous checking of concrete, steel, and finishing materials
- ♦ **Structural Certification:** Ensuring compliance with national or international safety codes
- ♦ **Process Audits:** Continuous monitoring of construction methodologies

STALLION STRUCTURES

ENGINEERING EXCELLENCE. GLOBAL STANDARDS. INTEGRATED SOLUTIONS.

Established in 2017, Stallion Structures is a premier multi-disciplinary engineering consultancy. We bridge the gap between complex architectural vision and structural reality, delivering robust, cost effective, and innovative design services worldwide.

Our Core Expertise

We don't just design buildings; we engineer the backbone of global industry. Our portfolio spans across critical sectors, ensuring stability in even the most demanding environments.

Industry and Energy	Urban Development
Oil and Gas Infrastructure	High-Rise Residential Towers
Petrochemical & Chemical Plants	Commercial Real Estate
Power Generation Projects	Mixed-Use Developments
Food & Beverage Processing Units	Urban Infrastructure

THE "ONE-END" SOLUTION

SPECIALIZED ONE STOP SOLUTION FOR ALL YOUR NEEDS

We believe in streamlined project management. Through our strategic associations, we offer a Single Point of Contact for multi-disciplinary engineering.

- **Structural & Civil:** Our primary DNA.
- **Mechanical & Piping:** Seamless integration for industrial layouts.
- **Electrical:** End-to-end power systems design.

The Result

We eliminate the friction between different engineering disciplines, providing a cohesive design from initial concept to final commissioning.

GLOBAL COMPLIANCE & DESIGN STANDARDS

STANDARDS THAT MEET THE GLOBAL COMPLIANCES

In an interconnected world, we speak the language of international safety. Our engineering team is expert in navigating diverse regulatory landscapes, ensuring every design accounts for Dead, Live, Wind, and Seismic loads under.

- **IS Codes** (India)
- **AISC/ACI** (American Standards)
- **BS Codes** (British Standards)
- **Eurocodes** (Europe)
- **SANS** (South African National Standards)
- **AS/NZS** (Australian/New Zealand Standards)

Technical Prowess & Software Stack

We leverage industry-leading BIM and FEM software to ensure every millimeter of your project is optimized for safety and material efficiency.

- **Analysis & Design:** STAAD.Pro, ETABS, Robot Structural Analysis
- **Modeling & BIM:** Revit, Tekla, AutoCAD, E3D
- **Connection & Foundation:** IDEA StatiCa, RAM Connection, Mat 3D
- **Automation:** Custom Visual Basic (VBA) Macros for bespoke engineering calculations

Why Partner with Stallion Structures?

1. **Safety-First Culture:** Rigorous adherence to global seismic and wind load parameters.
2. **Optimized Design:** Using advanced software to reduce material waste without compromising integrity.
3. **Global Delivery:** A proven track record of delivering designs that meet the specific geographic requirements of five continents.

RETAIL

THE EXECUTION PARTNER FOR GLOBAL & NATIONAL RETAIL GIANTS

National Fashion & Lifestyle Retail

- ◆ Tata/Trent Group (Zudio & Westside)
- ◆ CaratLane
- ◆ Reliance Digital large-format electronics
- ◆ D-Mart hypermarkets
- ◆ Starbucks
- ◆ Neelkama

The OM Advantage in Retail

Overnight Execution

Minimizing downtime for operational stores

Standardized Quality

Brand consistency across locations

In-House Engineering

Structural verification for retail mezzanines

THE TURNAROUND EXPERTS

REVIVING THE STALLED. COMPLETING THE IMPOSSIBLE.

One of our group's most specialized capabilities is the revival of stalled or "stuck" real estate developments. We step in when others step back.

Strategic Intervention Process

- 1 **Structural Integrity Audit:** Using Stallion Structures to assess existing frameworks
- 2 **Resource Re-planning:** Optimizing remaining budget and timelines
- 3 **Stakeholder Alignment:** Restoring project viability with developers and investors

Success Stories

Akshar Central	Keshav Bliss Management and completion of challenging high-rise
Satyam Designer Homes Showroom completion after 3-year delay	

RESIDENTIAL TOWNSHIP SPECIALISTS

REDEFINING REGIONAL LIVING AT SCALE

The driving force behind successful residential developments Majorly in Vadodara , Ahmedabad , Halol corridors through our work

Residential Impact by the Numbers

- ♦ **Total Completed Units:** Over 1,500+ Residential homes
- ♦ **Scope of Service:** Designing Land planning to final handover
- ♦

Key Projects

Monalisa 28 Towers 2 Commercials	Akshar City Row Houses & Duplexes
Akshar Vithalpuram Row Houses & Duplexes	Golden Vally Row Houses, Duplexes & Triplexes
Tranquility at Kensville golf club Ultra Luxurious Residences	Monalisa Lakewoods Luxurious Triplex
Nayalkaran Group High Rise at Different Locations	

INSTITUTIONAL & CORPORATE LEGACY

BUILDING THE FOUNDATIONS FOR EDUCATION AND INDUSTRY

Educational Infrastructure

Mount Litera Zee School

Vadodara - Comprehensive engineering design and execution for secure learning environment

Phoenix School

Vadodara - Structural design

Jiden Pharma

THE OM CONSULTANCY ADVANTAGE

WHY INDUSTRY LEADERS CHOOSE THE OM + STALLION SYNERGY

1. Proven Financial Scale Successfully overseen projects exceeding ₹2,000+ Crores, demonstrating ability to manage massive budgets and complex logistics.	2. Zero Coordination Gap In-house engineering eliminates friction between design and execution, leading to faster decision-making and zero site delays.
3. The Turnaround Specialist Unique capability to revive stalled projects (like Iscon Heights), solving problems others walk away from.	4. Material & Cost Optimization Advanced structural modeling ensures buildings are not over-designed, optimizing steel and concrete usage for significant ROI.

Client-Centric Approach

- Single Point of Contact: Streamlined communication throughout project lifecycle
- Transparent Reporting: Regular updates with detailed progress metrics via ERP Software
- Risk Mitigation: Proactive identification and management of project risks
- Quality Assurance: Multi-layer quality checks at every construction phase

Integrated Project Delivery

Our unique synergy between OM Consultancy's management expertise and Stallion Structures' engineering precision creates a seamless workflow that delivers projects on time, within budget, and to the highest quality standards.
